

JOY HALDER

OSINT Analyst | Digital Forensics Practitioner | Cybersecurity Aspirant

contact.cyberjoy@gmail.com | 8370980758 | West Bengal, India

PROFESSIONAL SUMMARY

Results-driven Cybersecurity student, OSINT practitioner, and independent Cybercrime Consultant with hands-on experience in digital footprinting, mobile forensic analysis, and open-source intelligence investigations. Proven track record of providing tactical resolution for cybercrime victims, analyzing real-world fraud, and leading community digital literacy initiatives

PROFESSIONAL EXPERIENCE

INTERNSHIP

OSINT Analyst | Kolkata Police Force

Aug 2026 – Present

- Working with the Special Task Force (STF), Kolkata Police as an OSINT Analyst, supporting real-world investigations through intelligence gathering, online research, and digital footprint analysis. Conducted OSINT-based investigations, collected, verified, and correlated information from publicly available sources, and created detailed digital profiles by gathering and analyzing relevant intelligence.

INTERNSHIP

OSINT Analyst | Defronix Cyber Security Pvt Ltd

Jul 2026 – Present

- Conducting open-source intelligence operations focused on advanced identity attribution and digital threat profiling. Utilized reconnaissance frameworks to analyze public footprints and delivered structured, comprehensive reports documenting investigative findings.

INDEPENDENT CONSULTANCY

Oct 2025 – Present

Cybercrime Consultant & OSINT Analyst

- Executed advanced identity attribution, mapped digital threat profiles, and provided immediate technical mitigation and evidence structuring for victims of digital fraud.

Volunteer Experience & Leadership

Aug 2025 – Present

Volunteer & Cyber Awareness Camp Organiser

- Coordinated and spoke at rural cyber-awareness camps to protect vulnerable populations from financial scams while providing direct fraud triage, account isolation, and incident reporting support.

HOOGLY RURAL CYBER CRIME POLICE STATION

Jun 2025 – Jul 2025

Cyber Crime Investigation Intern | 1-Month Internship

- Analyzed active fraud cases to extract actionable intelligence for technical resolution while maintaining data integrity under strict legal investigative procedures, search, seizure, and chain of custody standards.

ONLINE PROFILE

- Professional Network:** [Linkedin Profile](#)

EDUCATION

- **SUPREME INSTITUTE OF MANAGEMENT AND TECHNOLOGY** 2024 – 2027
B.Sc. in Cybersecurity (Pursuing)
- **Vivekananda Mahavidyalaya Haripal** 2020–2024
Bachelor of Arts
- **Belmuri Union Institution** 2020
Higher Secondary

CERTIFICATIONS & TRAINING

- **DCCI (Defronix Certified Cyber Crime Investigator)** – OSINT & Digital Forensics
- **Basic Cyber Security & Hygiene** – I4C, Ministry of Home Affairs (MHA) & Hooghly Rural Cyber Police Station
- **Cyber Security ELP (120 Hrs)** – Ministry of Youth Affairs & Sports (MY Bharat)
- **Introduction to Dark Web, Anonymity & Cryptocurrency** – EC-Council
- **Cisco Networking Basics** – Network Infrastructure & Protocols

TOOLS

- GHunt • Google Dorks • OSINT Framework • ExifTool • Shodan • Google Earth • Autopsy • FTK Imager • Wireshark • MobSF • Nmap • Burp Suite • HashCalc • Crystal • Happenstance • Holehe • Social Media Analyzer

TECHNOLOGIES I WORK WITH

- JavaScript • Python • C • MongoDB • MySQL • Git & GitHub • Linux • Kali Linux • Windows • JSON • HTML/CSS • Networking (TCP/IP, DNS, HTTP/HTTPS) • SQL • VirtualBox • MongoDB • Vercel

TECHNICAL SKILLS

- **Digital Forensics & Investigation:** Android APK Forensics (Static & Dynamic Analysis), Preservation of Digital Evidence, CDR/IPDR Analysis, Incident Containment, Chain of Custody Maintenance.
- **Intelligence & OSINT:** Full Intelligence Cycle, Google Dorking, Sock Puppet Management, Advanced Identity Attribution (Phone, Email, Username Recon).
- **Specialized Threat Analysis:** GEOINT, IMINT (Image Metadata/EXIF Forensics), SOCMINT (Social Media Intelligence), Dark Web Monitoring, Phishing Analysis.
- **Programming Languages:** Python, Javascript, C.
- **SOC Operations:** Log Management, SIEM fundamentals, and Threat Intelligence
